المؤتمر الشعبي للسلام  
The People's Peace Summit

Mar 15th, 2026

To:

**President of the United States, Mr. Donald Trump**

**Prime Minister of Israel, Mr. Benjamin Netanyahu**

Subject: **It's time to Stop the War and Advance Diplomatic Agreements**

Mr. President, Mr. Prime Minister,

As citizens of Israel, Jews and Arabs, who are paying unbearable prices in the war you initiated, while the war that's been raging for two and a half years is not truly over, we call to you with an urgent appeal:

**It's time to end the war with Iran** - a war that has unattainable goals and lacks a clear exit strategy; that does not serve our aspiration for a life of security, freedom and peace, and is detrimental on many other levels:

Under the cover of the war with Iran, the fragile ceasefire in Gaza is in danger of collapse, most of the crossings are closed, preventing the flow of humanitarian aid; President Trump's 20-point plan is in danger of collapse; settler violence is rampant in the West Bank - seven Palestinians were killed by settlers in just the past month; for two-and-a-half years we've been running for shelter again and again, and standing over our children's graves again and again. And now the entire Middle East is being dragged into a regional war - with every round of this *Forever War* driving the vision of regional stability and security further and further away.

We have warned repeatedly: "conflict management" is not a sustainable state of affairs. Indeed, on October 7th we saw the catastrophic consequences of this failed concept. The October 7 massacre and kidnappings, and the horrific war that followed, proved beyond doubt: **"conflict management" is an illusion, not a solution.**

Just as the Israeli-Palestinian conflict is a central source of regional instability, **its resolution will be the key to building a new and stable regional security architecture.** Every additional war in the region serves only to further the next round, rather than prevent it.

The People's Peace Summit

**War is not the solution.** Regional and global history teaches us that only political agreements and diplomatic apparatuses can ensure security and stability. It is therefore clear that in order to stabilize the region, the solution must include:

- An immediate end to the war with Iran, starting with immediate receptivity to initiatives for negotiation.
- Progress made towards implementing President Trump's 20-point plan, ensuring the activity of the Peace Council, a commitment to continuing the ceasefire in Gaza, and securing the humanitarian corridor.
- Putting an end to settler terrorism, expulsion and the de-facto annexation of the West Bank, and ensuring the rights of Palestinian communities.
- Announcing a binding political framework for the "day after": a **regional conference** that will launch a political process aimed at a secure and peaceful solution to the Israeli-Palestinian conflict, as the key to a broader regional agreement, normalization, and the establishment of regional alliances that will ensure long-term stability and prosperity.

**Given the almost-utter absence of a clear political voice calling for an end to the war, civil society is forced to raise this flag and express the will of the vast majority of the public in Israel, who desire life, peace, and an end to the cycle of bloodshed.**

**In a few weeks, thousands of Israeli citizens will gather at the People's Peace Summit in Tel Aviv, to raise a clear voice against eternal war and in favor of a political solution.**

**It's time** to end the war with Iran and put an end to the cycle of bloodshed.

**It's time** to stabilize the situation in Gaza, stop the escalation in the West Bank, and promote a responsible and realistic path to a broad political process to resolving the Israeli-Palestinian conflict and creating long-term regional stability.

Sincerely,

[It's Time](#) - The Coalition of Peace Organizations
